

## BCM SERVICES SUPPLIER – UNDER THE SPOTLIGHT

Established since 1978, **Broomhalls** sell and repair most makes of domestic & commercial use appliances. When asked, what was particularly unique about Broomhalls? Terry Broomhall (*Pictured*) had no problem explaining,

***“We are competitive with our prices, friendly and do our utmost for all customers.”***

*Terry Broomhall*

Not only are Broomhalls a member of Constructionline, they also have a Waste Carriers' Licence and City & Guilds qualifications a-plenty.

Sustainability is clearly an important part of the service, as Mark (*Pictured left*) pointed out, ***“we repair many appliances every day, so it is critical to make sure that our waste is minimal and environmentally friendly.”***

Broomhalls customer base is broad as well as it's long, with customers ranging from the General Public, Universities, Businesses, Schools, Churches, Clubs, Landlords and Nursing Homes to name a few.

They also offer a diverse service, not only do they repair appliances and sell spares, they also sell cookers, washing machines, tumble dryers, dishwashers, fridges, freezers, fridge freezers, microwaves and most makes of vacuum cleaners.

I asked Terry to sum up for us, she was very keen to highlight that 'Broomhalls guarantee all their repairs, provide local free collection and delivery and their price for larger items includes delivery, installation, and removal of old appliances.'

**At BCM Services, we can vouch for Broomhalls, and yes! They really do offer a personal and courteous service. For more information about Broomhalls visit:**
